

HitTrax is a Best-in-Class, Award winning technology designed to take Baseball & Softball training to the next level. Advanced analytics help players understand the results of their swings developed over years of training by themselves and with their individual coaches & instructors. It does NOT teach you HOW to hit, it teaches you how to understand WHAT is actually happening AFTER you hit.

In addition, it allows you to compete live against other like-minded players, while also having the opportunity to compete in Virtual Leagues against players from all over the country to see where you truly stack up against the competition.

See all the ways you and your teammates can take advantage of Hit Trax here at AE. Improve your Baseball or Softball skills to take your game to the next level!
